# Memorandum

To H. P. Wehrenberg, Board of Works

Date October 23, 1978

From Ruth Winget, Purchasing Department

Subject Hydraulic Valve Operator

## COPIES TO:

E. A. Stanczak Jr.  
S. L. Miller

Herewith is Purchase Order No. 0379 which is prepared favoring Deeds Equipment Company Inc. for One (1) Wachs Hydraulic Valve Operator for Water Maintenance & Service Dept.

We have checked all other sources and can not find any other sources available.

Attached are the following documents in support of the recommendation for acceptance of Deeds Equipment Company Inc.

1. Copy of Deed's Equipment Company Inc. letter of 10/19/78.
2. Purchase Order Number 0379.

It is urged that in referring this quote to the City Council for enactment of an ordinance, that all of the attached items, together with this memorandum (or copies), be included with the proposed ordinance.

Please make sure that no confirming Purchase Order Number is given to Deeds Equipment Company Inc. until evidence of Council approval is furnished to the Purchasing Department.

Valve operated installed

Auxiliary hydraulic tool Circuit installed

**Present Users:** The Wachs Truck Mounted Valve Operator is being used by cities with 2500 services or more. They are being used to save labor, avoid valve replacement and as the key part of regular valve exercising programs. It is a valuable labor saving tool in general maintenance or emergency work and makes it possible for cities of all sizes to have regular valve exercising programs. Helps insure peak system performance at all times.

**Accessories:** Other hydraulic tools like the Wachs dewatering pump, portable valve actuator or pipe cutter can be used with this tool by adding the Accessory Power Pack. Systems with a large number of valves not directly accessible by truck can usually be serviced by adding a portable actuator to the truck unit. It will power hydraulic tools with requirements up to 25 gpm @ 1500 psi. Extra valve keys, sockets and valve key adapters are available.

#### SPECIFICATIONS:

- Hydraulic Gate Valve Operating Machine to consist of twin heavy-duty hydraulic motors, spur gear drive and internal universal joint.
- Unit to be mounted on frame assembly consisting of graphite lubricated slide-out rails and heavy-duty frame.
- Machine to have Adjustable Torque Control device capable of limiting maximum torque output from 0 to 2400 ft. lb. with kick-out feature.
- To have directional control for clockwise or counterclockwise operation.
- To have revolution counter that adds or subtracts in either direction with quick reset.
- To include 21 gal. hydraulic reservoir, fluid level gauge, temperature gauge and pressure relief.
- To include 10 micron filter with replaceable element.
- To include overload relief valve.
- To be capable of speeds from 5 to 45 RPM.
- To be able to operate valve through 60".
- To include an 8' long heavy duty valve key and a heavy duty universal socket to fit A.W.W.A. standard 2" nut.
- Unit to be mounted on vehicle body by owner.
- To be guaranteed for one year covering parts and labor.
